

Leasing Services

Working toward a common goal

This is the singular philosophy that continues to build this team's reputation for success.

Our leasing group provides owners and tenants with a complete package of leasing services. We represent both landlords and tenants on an exclusive basis while sharing the information that ensures the best possible outcome for all parties.

Retail

A combination of thorough and complete market knowledge, together with the ability to match client need with the right retail location. This is the formula that makes our retail leasing team so successful.

Office

We identify the budget, the amenity requirements and most importantly, the desired location. Then our office leasing specialists go to work.

Whether it's a start-up requiring a few hundred square feet, or the relocation of a tenant as a major building anchor, this team strives to understand the client's needs – and then fill them.

This is why so many of our client relationships are based on the long term. As our clients' needs grow, they look to us to help. Over and over again.

Industrial

While tracking millions of square feet of Industrial space, NAI Commercial is able to find not only the best fit but the best value for its clients.
